

**RESTORATION UPDATE
AUGUST 2019 PART 2**

Rhian is filling in as our Restoration Minister while Dan is on Sabbatical. She will help me to make decisions and attend meetings. Rhian is shocked at how the church looks in such disrepair. The drones are to fly tomorrow and we will show the congregation the video in September. Be prepared to have a lot of feelings when you see the video. We need to remember that the experts know how to put this all back together again.

Today is concrete pour day. Good thing it is an interior location for the concrete to cure as it is very wet outside. The concrete trucks came from North Vancouver and they dumped their concrete into a pumper truck that then sent it through pipes into the crypt. All has gone smoothly so far.
